

SAT

It is recommended that all college bound juniors take the SAT and/or the ACT in the Spring of their junior year, and then again in the Fall of the senior year, if needed. Most universities and colleges accept either the SAT or the ACT for admission, but some colleges require a specific test. Check the admission requirements of the colleges to which you are applying!

SAT Reasoning Test and SAT Subject Tests

The **SAT Reasoning Test** is a three hour and forty-five minute exam that measures critical thinking, mathematical reasoning, and writing skills. The **SAT Subject Tests** are one hour tests designed to show knowledge in a specific area. Students can take one, two, or three subject tests on a test day. Subject tests cannot be taken on the same day the student takes the SAT Reasoning Test. Most colleges do not require subject tests. Check the admission requirements of the colleges to which you are applying!
